# **COMPANY PROFILE**

PT. Aneka Dasuib Jaya began its business journey by producing graviola leaves, noni, fingerroot, and various other spices. In 2021, we expanded our business into the production of sauces, seasonings, and food ingredients. We also established partnerships with franchise companies for the supply of raw materials.

In June 2021, we made our first import of seaweed (nori) products. Our nori product range includes various types such as sushi nori, onigiri nori, kizami nori, seaweed snacks, and nori seasoning. With the support of skilled and professional workers, we were able to quickly enter the market with our seaweed products by September 2021. We always prioritize customer satisfaction by consistently delivering products that are high-quality, halal, hygienic, practical, and affordable.

Our products have been certified by the Indonesian Ulema Council (MUI) and the Indonesian Food and Drug Authority (BPOM RI), ensuring they are safe for consumption by the Indonesian public. In 2024, we obtained the Hazard Analysis and Critical Control Points (HACCP) certification, which will enable us to expand our market to countries beyond Southeast Asia.

At the end of 2024, Hana Katsuobushi, Katsuodashi, and Matdashi were launched to elevate the company to a higher level. Hana Katsuobushi is made from high-quality skipjack tuna through a meticulous process and has begun to be exported to South Korea. We also plan to expand our market to Japan as well as other countries in Asia, North America, and Europe.

Our products have been exported to Saudi Arabia, South Korea, Malaysia, the Philippines, Singapore, and Taiwan. We are ready to expand our market beyond Southeast Asia. In 2025, we aim to further grow our international presence and introduce our products to more countries, while maintaining our commitment to quality, affordable pricing, and customer satisfaction.

Our company's main focus is the production of snacks and exports. PT. Aneka Dasuib Jaya is committed to continuous growth and making a positive contribution to the food and beverage industry.
